update the following sections: [Overview](#), [Calendar of Events](#), [Committees](#) to bring the

content of Website to current. [The revised object](#) uniquely identifies the mission of SIS and creates a new infrastructure to carry on a sustainable plan for the future of LSRD-SIS to serve our stakeholders effectively by adapting innovative technologies and to take a lead on the evolution from MARC to the Semantic Web compliant metadata. All of the changes were voted approved by the membership during our annual business meeting in June.

Ad-Hoc Sub-committees:

[LSRD-SIS Areas of Interest Website](#) chaired by Keelan Weber, Member-at-Large was created to identify an expert in each area for any questions or guidance to help each other.

Membership Survey Committee chaired by Rebecca Bearden, Vice Chair/Chair Elect reviews the biannual survey questionnaires to be more targeted to assess membership interests, needs and trends to solicit more volunteers and to encourage more membership involvement to strive for the future of our SIS.

Bylaws and Handbook Committee chaired by Kevin Carey and Keiko Okuhara is an extension of what past LSRD board worked on to reexamine the scope of the object to comply with the name of our SIS .

Black Lives Matter to support George A. Strait Scholarship & Fellows Program:

The LSRD-SIS board and members decided to make a perpetual annual donation toward the Scholarship in the amount of \$300 in 2021. However, the board found out that the program had received overwhelming financial support and decided to make a donation to the Black Law Librarians SIS (BLL-SIS) instead in the amount of \$300 in 2022.

We appreciate all helpful feedback and suggestions to educate the board how we could serve the membership better and to introduce useful tools and program ideas. Also, some work through Ad-hoc committees will be continued as Strategic Planning and Areas of Interest Committees in the coming year.
